

Venous University Class of 23/24

Discover the feedback

"An amazing and well-designed course that was thoroughly enjoyable."

100% of the Class of 23/24 agreed that Venous University:

Met the objectives

Was a good use of their time

Covered relevant, current issues in venous patient care

Enhanced their knowledge and understanding of best practice

Provided practical strategies to implement learnings

Had an inclusive and professional culture

Let's take a closer look at the modules

Module 1

Ultrasound skills to support venous interventions

"Perfect teaching. It's improved my confidence in duplex scanning."

How well did the day meet participants' learning objectives?

Session	'Good' or 'excellent' participants' rating
Duplex for superficial	90%
Understanding systems and scanning	100%
Interpreting superficial	100%
Interpreting deep scans	100%
Deep venous scanning	100%
US cannulation skills	90%

The talks were excellent - great Faculty. Thanks so much to the organisers.

Expert input from sonographers.

The practical sessions were great.

Module 2

Iliofemoral disease management and stenting

"[I've gained] increased confidence in the operative technique."

How well did the day meet participants' learning objectives?

Session	'Good' or 'excellent' participants' rating
Introduction to deep venous disease and live cases overview	100%
Live cases operating theatre suite	100%
Principles: acute deep venous disease	71%
Hands-on session: dedicated deep venous stent	71%
Hands-on session: deep venous stent simulator	71%

Live theatres and discussing cases.

Theatre attendance for deep venous procedures.

Seeing live cases and hearing the reasoning behind technique.

Module 3

Chronic venous insufficiency management and intervention

"This was an excellent masterclass!"

How well did the day meet participants' learning objectives?

Session	'Good' or 'excellent' participants' rating
Pre-dinner with Dr. Manj Gohel	100%
Principles of managing CVI, NICE and CEAP	100%
Venous case discussions	89%
Non-thermal	100%
Endothermal	89%
Sclerotherapy	100%
Deep and superficial	100%
VLU management	89%
Phlebitis	89%
Recurrence	67%
Perforators	100%
VTE prophylaxis	100%

Engaging, interactive and complex talks/discussions.

The teaching Faculty were approachable and incredibly supportive.

Practical use of the VenaSeal™ kit.

Module 4

Venous service design, building service efficiency, and graduation

"Very useful and enjoyable."

How well did the day meet participants' learning objectives?

Session	'Good' or 'excellent' participants' rating
Model pathways	100%
Health economics	100%
How to create a deep service	100%
Overcoming barriers to care	100%
Service provision	100%
Private practice	100%

Excellent and superbly delivered.

I'm more aware now about [the] challenges with introducing a new service.

A very structured model
